About the Anita Borg Institute

The Anita Borg Institute for Women and Technology (ABI) connects, inspires and guides women in computing and organizations that view technology innovation as a strategic imperative. Founded in 1997 by computer scientist Anita Borg, our reach extends to more than 65 countries. We believe technology innovation powers the global economy, and that women are crucial to building technology the world needs. As a social enterprise, we recognize women making positive contributions, and advise organizations on how to improve performance by building more inclusive teams. ABI has over 50 industry partners, which you can view at <http://anitaborg.org/partner-with-us/our-partners>. The Anita Borg Institute is a not-for-profit 501(c) 3 charitable organization in the US and a non-profit organization registered as a section-8 Company under the Companies Act, 2013 in India. For more information, visit www.anitaborg.org.
